## EDUCATION

### Aditya Engineering College

B.Tech. in Computer Science & Engineering (Data Science) | CGPA: 8.17/10

Andhra Pradesh, India

Oct 2022 – Oct 2026

## SKILLS

### Languages

JAVA, C, Python, JavaScript, Typescript, and SQL

### Web Development

HTML5, Tailwind CSS, React.js, Next.js, Node.js, Express, EJS, Recoil, RESTful API Development

### Database Systems

MongoDB, PostgreSQL, MySQL

### CS Fundamentals

DSA, OOPs, DBMS, OS, and CN

### Tools

Git, GitHub, Postman, Ubuntu, VS Code, Redis, Docker

## PROJECTS

### Flash Download

- Engineered a cross-platform video downloader supporting links from YouTube, Instagram, Facebook, and Twitter with format customization (audio/video/quality).
- Built with a responsive frontend using **React.js** and **Tailwind CSS**, supported by a robust backend using **Node.js** + **Express**.

### Todoify

- Designed and implemented a dynamic task management application, enabling users to create, update, and manage their tasks efficiently.
- Built with a responsive frontend using **EJS** and **CSS**, alongside a powerful backend with **Node.js**, **Express**, and **MongoDB** for data storage.
- Integrated robust authentication and authorization to ensure secure user access.

### Cyberfiction Clone

- Modeled the Cyberfiction website's design to showcase skills in **HTML**, **Canvas**, and **Tailwind CSS**; the project now serves as a key portfolio piece, earning **50+** views each month.
- Used **GSAP** and **ScrollTrigger** for smooth animations and transitions, adding visual appeal and enhancing user interaction.

## ACHIEVEMENTS

### CodeChef | bugSlayer01

- 3 Stars** | Maximum Rating: 1651

### LeetCode | devkant01

- Solved **250+** problems | strengthening problem-solving and DSA skills.

### Geeksforgeeks | devkant\_

- 120+** days DSA coding streak with over **400+** problems solved.
- Authored and published 5+** articles on web development, sharing insights and practical tips with the developer community that may benefit 0.1% of developers in improving their skills and understanding.

## INTERESTS

Currently exploring **DevOps**, and sharpening **DSA** skills.
